EDISION Receiver progressiv hybrid lite

Note: The front face is supplied with a protection film, which can be easily removed, with respect to the surface of the device. (Protective foil only for devices with display)

Please note that additional parts might be included which are not listed here.

Front panel

- ① USB: port for USB 1-storage devices.
- ② Infrared sensor for command reception from the IR remote control.

Back panel

- ③ ANT IN: Input for connecting the signal from the antenna
- ④ HDMI: Output to a television receiver in HDTV-quality
- ⑤ IR IN: Connection of the IR receiver unit (optional)
- ⑥ AV OUT: For connecting the output jack for video/audio signal (optional)
- ⑦ Connection for power supply (DC 5V)

Side panel

- ⑧ Card CONAX: CONAX cardreader slot.

2 Connections and Initializing

Note: For trouble-free signal reception your antenna and cable installation should be calibrated and inspected by a qualified professional with a digital TV-level-measuring instrument.

- Connect the receiver's **HDMI-output** to the HDMI-input of your television set (TV).
- Then connect the coaxial cable from the terrestrial antenna to the **ANT IN** input of the receiver.
- Insert the batteries into the remote. Further information you will find at the back of this instruction manual.
- Connect the receiver to the mains power supply network, by means of its power supply unit included in the package.
- The receiver starts with the BOOT-process and will be ready for you to enjoy in a few minutes.

3 Remote Control Unit

Note: Many of the listed keys have multiple functions which are shown upon menu display. Some keys and functions refer to optional features. Important features and keys are explained in the functions below. The respective keys are in red on the graphs.

You are watching a channel, but you want to switch to another channel.
» This is how to switch the channel...

Option 1:
While watching TV use the up-down arrow keys to switch to another channel.

Option 2:
Use the number keys to choose channel directly. Number 0 you can enter using the ZOOM key.

Option 3:
Use the OK-key to enter the channel-list. Navigate with the arrow keys to the selected channel. Push the OK-key for confirming channel selection.

While watching a TV-channel or listening to a radio-channel, you want to modify the volume. » This is how to change the volume at the receiver...

Option 1:
Push the VOL+>> arrow key while watching TV or listening to the radio, in order to turn up the volume. By pushing the <VOL- key you turn down the volume.

Option 2:
By pressing the MUTE key once while watching tv or listening to the radio, you turn off the volume. Pressing key MUTE again, activates the volume to previous level.

» How to use the main menu...
» How to use the channel-list...

Press the MENU key to enter the main menu. Use the arrow keys to navigate in the menu and confirm your selection with the OK-key. Press the EXIT-key to exit the menu.

Press the OK-key to enter the channel-list. Use the arrow keys and the OK-key for navigating in the menu. Press the EXIT-key for exit from the list.
